

KHALID ABD ELRAHMAN MUSTAFA KORENA

Cloud & DevOps Engineer

Cairo, Egypt | +249 997193304 | khalid.korena14@outlook.com | linkedin.com/in/khalid-korena-544793246 | github.com/khalidkorena15

PROFESSIONAL SUMMARY

Cloud & DevOps engineer with hands-on experience designing and deploying secure, scalable infrastructure across AWS and Azure. Background in network and systems administration, with AWS and Azure certifications and a portfolio of production-style cloud projects spanning containerization, serverless architecture, and security monitoring.

TECHNICAL SKILLS

- **Cloud Platforms:** AWS (EC2, S3, IAM, ECS, Fargate, ECR, Lambda, API Gateway, DynamoDB, Step Functions, CloudWatch, GuardDuty, VPC) · Microsoft Azure (VMs, Azure AD, App Service, Storage, Networking)
- **Systems & Networking:** Windows Server Administration, RedHat Linux, Active Directory, TCP/IP, DNS, DHCP, VLANs, Routing & Switching
- **Containerization & DevOps:** Docker, Amazon ECS/Fargate, Nginx, Application Load Balancer, Auto Scaling, Infrastructure security automation
- **Scripting & Tools:** PowerShell, Bash, Python, AWS CLI, Azure CLI
- **Security & Monitoring:** IAM least-privilege, MFA, RBAC, pfSense, Fortinet Firewall, Prowler, Amazon GuardDuty, CloudWatch, Log Analytics

PROFESSIONAL EXPERIENCE

Network Administrator Intern — City College, Khartoum, Sudan

Mar 2023 – Apr 2023

- Deployed and configured Virtual Desktop Infrastructure (NComputing) across the institution's internal and external network
- Audited network devices, migrated data from primary to backup servers, and reviewed pfSense firewall rules and network design

System Administrator Intern — RCB Bank, Khartoum, Sudan

Jun 2022 – Mar 2023

- Managed user accounts, security policies, and Group Policy software deployment across an Active Directory environment
- Monitored network communications and verified backup integrity using SAN storage solutions

SELECTED PROJECTS

Bank Transaction Microservice — Secure AWS Architecture github.com/khalidkorena15/Bank-Transaction-Microservice-AWS

- Deployed a secure banking microservice on AWS using public/private VPC subnets and bastion-host access, with continuous security monitoring via CloudWatch, GuardDuty, and Prowler

Multi-Cloud Application — AWS + Azure github.com/khalidkorena15/multi-cloud-aws-azure

- Built a cross-cloud architecture routing traffic from an AWS ECS (Fargate/ECR) frontend to an Azure App Service Flask backend over HTTPS

AWS ECS Fargate Nginx Deployment github.com/khalidkorena15/aws-ecs-fargate-nginx-project

- Architected a production-style containerized service on ECS/Fargate with Application Load Balancer, multi-AZ high availability, and auto scaling

Serverless Event Processing API github.com/khalidkorena15/serverless-event-processing-api

- Designed an event-driven pipeline (API Gateway → Lambda → Step Functions → DynamoDB) with retry logic and full CloudWatch observability

Takween Assistant — AI Helpdesk Platform github.com/khalidkorena15/Takween-Assistant

- Built an embedded AI chat widget (PHP/MySQL, Claude API) with tiered escalation, an admin FAQ console, and full audit logging for an author-management platform

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate · AWS Cloud Practitioner Essentials · Microsoft Azure Administrator Associate
- Microsoft Azure Fundamentals (x2) · RedHat Linux Administration I & II · MCSE: Windows Server 2016 · Cisco Certified Network Associate (CCNA) x2

EDUCATION

National University of Sudan (NUSU) — Khartoum, Sudan

Graduated Apr 2022

LANGUAGES

Arabic (Native) · English (B2)
